

Aircraft Maintenance Engineers

Qwest Helicopters is looking for Aircraft Maintenance Engineers who thrive in dynamic situations, have experience in high-stress settings and exhibit strong decision making and problem-solving skills.

Mechanically inclined individuals committed to learning and growing within their position will excel in this role.

We are looking for individuals with an honest work ethic who want to be an active part of our company.

Candidates should be capable of working in various challenging weather climates, including limited night and winter operations.

Requirements

- Valid Canadian Aircraft Maintenance Engineer M1 or M2 license
- Has held ACA at a recognized AMO facility
- Valid Canadian driver's license
- Can self-manage and be accountable
- Can follow instructions, organized and able to meet deadlines

Consideration will be given to candidates with experience and ratings on any of the following types: B206, AS350, AS365 and B205 Helicopters.

Most of our maintenance is conducted within our main hanger for the 12 months.

Tours are negotiable.

Remuneration is 120K – 140K.
